Powered by Dexus®

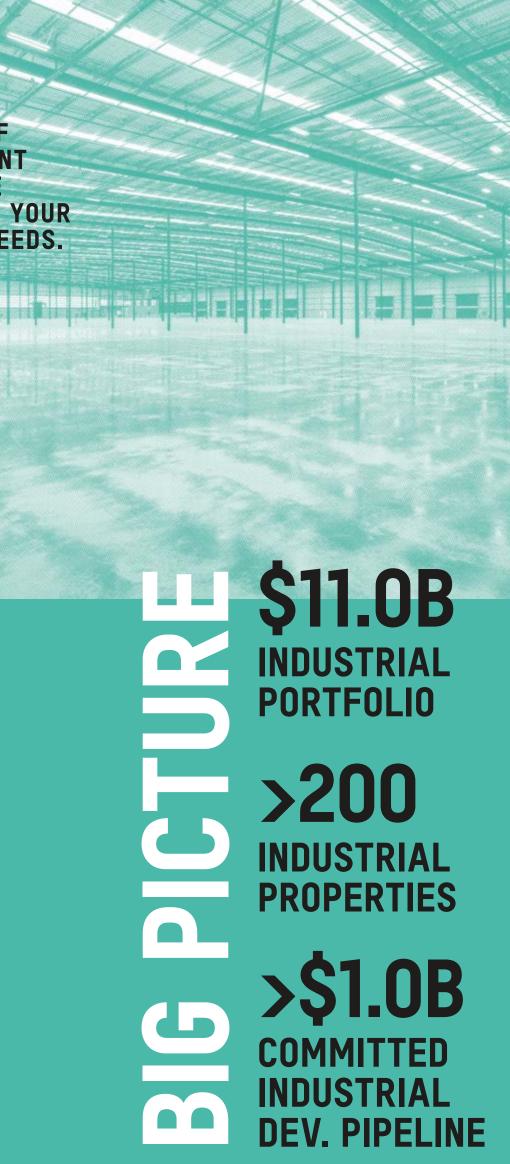

36 YEARS OF DEVELOPMENT EXPERIENCE FOCUSED ON YOUR BUSINESS NEEDS.

Dexus is a leading fully integrated real asset group, managing a high-quality Australasian real estate and infrastructure portfolio valued at \$53.4 billion.

We believe that the strength and quality of our relationships will always be central to our success and are deeply connected to our purpose:

Unlock potential, create tomorrow.

2 MILLION SQM-STRONG REPUTATION

We manage 2 million square metres of premium estates, and service a total of 4.5 million square metres for local and international clients.
But we know one size doesn't fit all.
That's why, through build and beyond, we'll adapt to meet your current needs and exceed your future ambitions.

Our flexible, partner-led mindset sees us take a uniquely collaborative approach to every development, commercial and industrial. That means high quality design and built form featuring innovations bespoke to your organisation. And with Horizon 3023, we'll go beyond management and maintenance, enabling onsite activations that align with your brand — and promote it to local residents.

CASE STUDY AMAZON

In 2020, Dexus partnered with Amazon to develop their second distribution centre in Melbourne, doubling their footprint in Victoria and increasing the speed in which the e-commerce giant can ship products to Victorian customers from Melbourne. The large-scale facility spans 37,000sqm with capacity to house up to 6 million items from Amazon's online platform.

Amazon had a very specific brief based on global standards. During the design planning phase, an increase in demand during the pandemic saw the need for a bigger facility. We worked closely with Amazon's local and global team, along with our construction partner to redesign the facility to suit their new requirements, without compromising the practical completion date.

CASE STUDY

Electrolux are a leading global appliance company that has been in operation for over 100 years. Under their brands, including Electrolux, AEG and Frigidaire, they sell approximately 60 million household products in over 120 markets every year. The new facility developed for Electrolux is notable for its 6 star Greenstar Design and As Built certification, a first in the Dexus Industrial portfolio. This was achieved with the installation of a 200kW solar array, electric vehicle charging bays, rainwater recycling to supply landscaping irrigation and bathroom amenities, sustainable materials used throughout and noise and glare reduction in the office and showroom spaces.

Another key feature is the premium designed showroom and office, where Electrolux can demonstrate their latest appliances to their customers.

The development was a collaboration with Electrolux, Dexus and our partnered builder of choice, Qanstruct.
